SYLLABUS VS CURRICULUM

- When it comes to education, the two concepts which pop up in our mind which are commonly misconstrued are syllabus and curriculum.
- Syllabus connotes the subjects as well as the topics covered in the course of study.
- On the other hand, curriculum implies the chapters and academic content taught in school or college.
- It alludes to the knowledge, skills and competencies students should learn during study.
- The curriculum has a wider scope than the syllabus.

CHANGING HUMAN KNOWLEDGE FAILS TO RECOGNIZE THAT FUNDAMENTAL PARADIGM SHIFTS APPEAR VERY INFREQUENTLY IN DISCIPLINES.
