GREEN MENTORS

Powered by Law of Nature

Special Consultative Status with the
Economic and Social Council of United Nations from 2021

Green Mentors is a non-government sustainable & responsible education solution provider organization having special consultative status with the Economic and Social Council (ECOSOC) of the United Nations.

Green Mentors also undertake Green School and Green University auditing and accreditation towards transforming conventional learning spaces into healthy, thriving, sustainable learning spaces that contribute positive social, economic, and environmental benefits.

Green Mentors is inspiring Schools and Universities to accept accountability to the pupil & planet, a special responsibility in confronting the challenges of climate change and sustainability.

Green Mentors is the only Green School Accreditation Organization which certifies Schools as Global Green Schools by Auditing, Facilities, Resources, and Practices.

GREEN MENTORS GUILD

Green Mentors Guild is a Network of Green School Principals, University Vice Chancellors and Trainers, who are working on transforming Conventional Schools and Universities into Nature Inspired Green Schools and Universities.

NATIONAL GREEN MENTORS CONFERENCE

National Green Mentors Conference is only United Nation SDG inspired academic Conference, that brings together all the players involved in making Green Schools and Universities reality in India.

The Conference offers inspiring keynote speakers, informative workshops and breakout sessions, symposium, hands-on presentation, roundtable discussion, poster presentation, bright spot and the chance to network with colleagues from across the Country.

The Conference also offers engaging educational sessions, case studies, lectures from today's green school experts and the chance to network with colleagues from across the Country.

Green School is a unique education concept driven by the law of the nature which leads towards a greater future.

GREEN SCHOOL

Green School concept has taken roots in many countries across the world based on various indigenous concepts including United Nation's concept of SDGs. More than 50,000 conventional schools including some schools in India are now transformed as Green Schools.

In spite of the variety of Green School concepts introduced by different countries across the World, Indian concept of Green School is amazing and considered best in the World, because Indian concept of whole Green Schooling is designed on the basis of indian ethos "5 elements of Nature (Panchabhutas)".

EARTH
Sustainable campus

WATER
Clean Water

AIR
Breatheble Air Quality

LIGHT
Green Energy

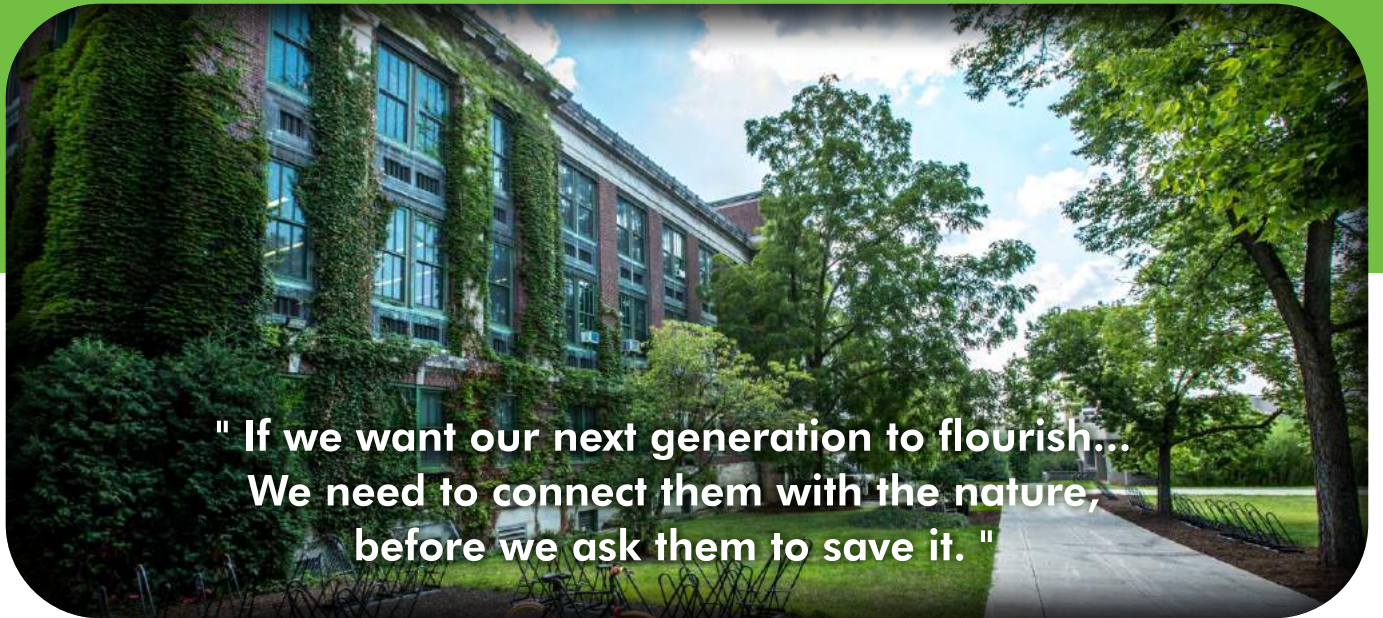

SPACE
Space & Technology

Green School is an amazing initiative, pioneering sustainability within education.

It is pushing boundaries in schooling at a time when the world must review whether more of the same is acceptable.

**" If we want our next generation to flourish...
We need to connect them with the nature,
before we ask them to save it. "**

GREEN UNIVERSITY

The concept of Green University demands not just the incorporation of a spirit of sustainability into University operations, Curriculum Planning and Daily life on campus, it likewise means providing assistance to the University itself, the community, the Society in general, the Country and the entire Human race in facing a Sustainable future through Teaching, Research, Innovation and Campus activities.

As a responsible Academic Institute of this region, your University must be willing to be a full-fledged Green University and also strive to bring a greater emphasis on achieving a Greener World for the society.

Universities are no exception, and like everyone else, are becoming increasingly proactive on Green issues. Universities will have to introduce sustainability into their teaching curriculum – offering both dedicated courses and individual modules with sustainability enabled programs.

Many Universities have recognized these demands, and are investing in Greener buildings, greener practices and products, and ways of engaging staff and students. Below are the few examples of Green University initiatives.

**Green University believes in :
Be local and let local environment
guides its policies and values.**

There is no blueprint for being a green school. The hallmark of this concept is its diversity.

BENEFITS OF GREEN SCHOOL & UNIVERSITY

A Green School and University brand is good for everyone involved. In addition to protecting students from environmental health and safety risks, it helps to save money and increase efficiency. School and University that makes environmentally healthy practices as a top priority can realize many of the following benefits :

- ❖ Save money through reduced consumption of resources and energy savings
- ❖ Increase efficiency of operations and use of resources
- ❖ Create favorable learning and teaching conditions
- ❖ Curriculum enrichment through practical experiences
- ❖ Enhancement of Academic, Social, Environmental and Economic profile
- ❖ Enhancement in overall annual result
- ❖ Consistency in student's Fitness level
- ❖ More involvement of student in learning process
- ❖ Discipline is driven by respect, care and concern
- ❖ Students are nurtured in a natural environment
- ❖ Reduction in parent complaint ratio towards learning
- ❖ Rise in trust and faith of parents toward School, College and University
- ❖ Rise in teacher's efficiency, proficiency and performance

FOCUS AREAS

Environmental Impact

Proven strategies and leading-edge ideas for how schools and universities can reduce their impact on natural systems through conserving resources and supporting local ecology.

Health & Well-Being

Proven strategies and leading-edge ideas for how schools and universities can support the physical and emotional health and well-being of students and teachers through the physical environment and programming.

Environmental and Sustainability Literacy

Proven strategies and leading-edge ideas for how schools and universities can support student understanding of the interconnectedness between living systems, human health, and economic prosperity through place-based education, project-based learning, and integrated approaches to curriculum.

Topics

Green Pre-school, Green School, Green University, Green Curriculum, Green Game, Green Co-curricular Activities, Green Teacher, Green Assessment, Green Uniform, Green Transport, Green Food, Green Audit, Power of Nature in Education, Communication with Nature, Behavior with Nature, Climate Art, Climate Science, Green Pedagogy, Green Maths, Green Lab, Elements of Nature, Green Classroom, Military Classroom, Wellness Classroom, Mountain Classroom, Marine Classroom, Military Classroom, Power Classroom, Green Academic Calendar.

SESSION FORMATS

Conference participants will see a wide variety of session types listed in the conference program. The different formats help us maximize the diversity and number of presenters. Session formats vary in length and degree of depth and interaction.

Workshop (full or half day)

Workshops are in-depth sessions that actively develop specific professional competencies and have widespread potential for implementation.

Symposium (90 minutes)

Symposia are panel discussions presenting different perspectives on a topic or question related to one of the focus points for each strand. Panels generally include at least three panelists and a moderator.

Hands-on Presentation (90 minutes)

Hands-on sessions provide participants with an opportunity to engage in teaching activities and interactive discussions about a particular topic.

Traditional Presentation (40 minutes)

Traditional presentations focus on a single topic or program, typically including a talk or media presentation followed by a short discussion.

Roundtable Discussion (40 minutes)

Roundtable discussions emphasize spirited discussion between the presenter(s) and session attendees. Presenters briefly introduce the baseline question they wish to explore, and then open the discussion for input and exchange of ideas. Multiple roundtable discussions occur simultaneously in one large room.

Poster Presentation (40 minutes)

Posters are two-dimensional printed presentations illustrating research studies, programs, or other work. Posters are fixed to bulletin boards for conference participants to review at leisure. In addition, all presenters will be available during the Exhibit Fair Luncheon on Thursday to share their posters, answer questions, and interact with attendees.

Bright Spot (10 minutes)

Bright spots are succinct talks that celebrate specific triumphs and showcase things that work. Each presenter has 10 minutes to highlight important research findings, and successful and innovative family programs, school programs, community partnerships, conservation achievements, and more.

Women in Green Power Breakfast

This is morning event, which celebrates the power of purpose, to learn from women on how to bring power of nature into Teaching Learning Process.

AWARDS

Green Mentors also wishes to Honor the life, Journey and Contribution of School and University Leaders, Vice Chancellors, Principals, Investors, Administrators, Professors and Teachers for their contribution in Environment through Education. We also wish to honor the Green Solutions Provider, Enterprises, Institutions, Individuals and Initiatives for making Green differences.

We are well aware that, your Contribution towards creating a holistic sustainable society is significant in your region, and your Story can inspire others who are working in your area of interest in other part of the World.

If you have documented your work related to creating environmental activities in education and other areas of sustainability, you can be one of many Awardees like Inspiring Green Educator Award, to be conferred at National Green Mentors Conference at Ahmedabad.

WHO CAN ATTEND...?

Green Mentors invites all Principals, Teachers, Directors, University Professors, Vice Chancellors, Registrar Government Officers, NGOs, Investors, Environmentalist, Architect, Journalist, Policy Makers and Technology Developers to participate in this Conference to make the India Green and Great again through education.

National Green Mentors Conference provides an unmatched opportunity for green school and university advocates nationwide to collaborate and learn from one another — all with a vested interest in making a positive difference in our children's futures.

This event will be an exciting, exploratory day of learning about caring for our planet and ourselves. Participants will be encouraged to make friends and share thoughts and ideas about making the world a better place for all.
